

Capability Statement

COMPANY OVERVIEW

The mission of Safe Harbour Products, Inc. (SHP) is to create the finest, most effective lubricating and penetrating solution, using the most current components available. Our product, Nexus Green beats all the competition, while simultaneously being environmentally safe, non toxic, non flammable, and sustainable. Created from a proprietary combination of 21st century components, some of which are patented, Nexus Green is the leading lubrication for today's problems.

CORE COMPETENCIES

Nexus Green lubricates without any harsh chemicals, silicons, or volatile organic compounds (VOCs). Unlike other lubricants, Nexus Green even works in the winter (down to -10° F)! This sustainable, odorless lubricant never expires and tackles everything from squeaky doors and rusty bolts to cleaning heavy lube from machinery gears.

- Lubricates
- Quiets noisy doors, hinges, & drawers
- Lubricates buckles & fasteners
- Prevents sliding doors from sticking
- Frees up rusted tools

- Displaces moisture
- Protects door mechanisms on storage containers
- Protects tools & machinery from corrosion
- Protects against salt spray in marine environments
- Cleans & removes grease build up on tools & equipment
- Removes adhesive residue
- Cleans & lubes chainsaw bars

DIFFERENTIATORS

Developed over the last 6 years, Nexus Green is differentiated from competitors (such as WD-40) through our safe, unique green formulation which provides the ability to maintain consistent viscosity, as well as low drag, significantly longer than other better known products. Nexus Green Lubricating and Penetrating Solution meet the demand for a safe, modern lubricant that will not harm or destroy plastic, rubber, wood, metal, or composites. It is non flammable and contain no VOCs. It is safe for use around children, pets, and employees; yet cleans up with soap and water. Nexus Green is at the forefront of evolving technology and provides the lubricating and penetrating performance required for the 21st century.
