NEXUS News

This Week's Insight:

NEXUS GREEN is Growing

We're excited to continue growing the NEXUS GREEN community and connecting with customers in new ways.

We recently launched our official YouTube and Instagram accounts, where we'll be sharing product demonstrations, helpful maintenance tips, unique applications, and real-world examples of what NEXUS GREEN can do.

Follow us at @nexusgreenofficial on YouTube and Instagram to see NEXUS GREEN in action.

Three Formulas. Countless Applications.

NEXUS GREEN is a versatile maintenance solution designed to clean, lubricate, penetrate, and protect. We offer three specialized formulas for different maintenance needs.

Multi-Use Lubricant is designed for everyday jobs around the home, garage, and workshop.

Marine Lubricant is built for everyday boating and docking equipment exposed to water and salt.

NEXUS GREEN CLP combines cleaning, lubrication, and protection for firearm maintenance.

From loosening stuck parts and lubricating moving components to helping protect against corrosion, there's a NEXUS GREEN formula for a wide range of maintenance needs.

I used NEXUS GREEN Multi-Use on squeaky doors around the house and the noise was immediately gone. Couldn't recommend the product enough!

Heidi, NEXUS GREEN Customer

Multi-Use Lubricant

Powerful. Non-Toxic. USDA BioPreferred.

APPLICATIONS

Made in the USA, NEXUS GREEN Multi-Use is non-toxic, biodegradable, non-flammable, virtually odorless, and easy to clean up with soap and water. Its versatile formula can be used on metal, wood, plastic, rubber, and composites, making it an ideal solution for everything from household maintenance to commercial, industrial, and outdoor applications.

EXAMPLES:

- Free a rusted bolt
- Quiet a squeaky hinge
- Drive moisture from precision tools
- Clean adhesive residue from surfaces

STRONG ENOUGH

NEXUS GREEN Multi-Use helps loosen rusted or seized parts, stop squeaks and grinding, displace moisture, protect against corrosion, remove grease and residue, and keep moving parts operating smoothly. It provides long-lasting lubrication and protection without the harsh chemical profile, petroleum-based ingredients, or strong odors associated with many traditional lubricants.

SAFE TO USE

For businesses and consumers seeking a safer alternative, NEXUS GREEN offers an important combination: industrial-strength performance and a family-friendly, environmentally conscious formulation. It can be used around children, pets, employees, and food areas, making it a practical choice for both professional and everyday applications.

Marine Lubricant

Biodegradable. Effective. Long-Lasting.

APPLICATIONS

NEXUS GREEN Marine is a high-performance, sustainable, biodegradable, and non-flammable marine lubricant designed to penetrate, lubricate, clean, and displace moisture. It is suitable for use on a wide range of marine equipment, including winches, blocks, pulleys, fishing gear, chains, fasteners, metal and composite components, and any other equipment where friction is an issue.

EXAMPLES:

- Cleans exposed vinyl on boats
- Keeps boat engine parts rust-free
- Removes oxidation from boats
- Protects and lubricates floating docks after thawing

STRONG ENOUGH

For boat owners, marinas, marine professionals, and anyone who works around water, protecting equipment from rust, corrosion, moisture, and salt exposure is essential. NEXUS GREEN Marine was specifically developed to provide powerful lubrication and protection in demanding marine environments without harming aquatic ecosystems.

The formula creates a long-lasting, water-resistant barrier that helps protect equipment from corrosion, frees stuck or rusted components, and keeps moving parts operating smoothly. Our formulation is non-toxic and safe when combined with fresh or salt water. NEXUS GREEN Marine performs in a wide range of temperatures and can be cleaned up with soap and water.

SAFE TO USE

Marine maintenance shouldn't come at the expense of environmental safety or user well-being. NEXUS GREEN Marine combines serious marine performance with an environmentally responsible formulation. It is non-toxic, biodegradable, non-flammable, and designed for use in marine environments. The product is also FDA-certified (USDA bio-preferred) for use in U.S. waters.

CLP

American-Made. Dependable. Tough.

APPLICATIONS

Made in the USA, NEXUS GREEN CLP is non-toxic, biodegradable, non-flammable, and scent-free. Its formula is designed to clean and lubricate firearms while leaving behind a long-lasting protective barrier that helps minimize the buildup of powder residue, grit, and grime and protects against rust and corrosion.

For firearm retailers, shooting ranges, sporting-goods businesses, gunsmiths, military and government organizations, and individual firearm owners, NEXUS GREEN CLP offers a compelling combination of performance, safety, and environmental responsibility.

EXAMPLES:

- Displaces moisture from guns after cleaning
- Prevents corrosion on weapons
- Protects gun parts when in use and during storage
- Removes grime from gun surfaces

STRONG ENOUGH

NEXUS GREEN CLP can be used repeatedly for firearm maintenance and is designed to work across a wide range of temperatures. It can also be applied precisely using aerosol or non-aerosol options, making it suitable for use at the range, in the field, or during routine firearm maintenance.

SAFE TO USE

Traditional firearm lubricants can come with strong odors and harsh chemical formulations. NEXUS GREEN takes a different approach. Its virtually odorless, non-toxic, non-flammable, biodegradable formulation provides the cleaning, lubrication, and corrosion protection firearm owners need without the unpleasant odor associated with many conventional CLPs.

USDA CERTIFIED BIOBASED PRODUCT

MADE IN USA

NSF Registration #157052

2019 Specialty Equipment Marketing Association (SEMA) Show

NEXUS GREEN at the Las Vegas Convention Center | Finished in the **Top 10** for New Products

NEXUS GREEN earned a Top 10 spot at the 2019 SEMA Show in Las Vegas. Showcased at the Las Vegas Convention Center, NEXUS GREEN was recognized among the show's standout new products, highlighting its innovative approach to safer, more versatile maintenance and lubrication. The recognition helped introduce NEXUS GREEN to industry professionals and automotive enthusiasts from across the country. It marked an important early milestone for the brand and demonstrated the product's potential across a wide range of applications.

Squeaky Wheel? Stop the Squeak with NEXUS GREEN

How NEXUS GREEN Multi-Use can silence a squeaky wheelbarrow.

Phone calls ringing. Car horns honking. Your neighbor's dogs barking. With noise constantly surrounding you, some things should just be quiet. NEXUS GREEN can help.

NEXUS GREEN Multi-Use is made for countless home maintenance tasks, from loosening rusty bolts to lubricating moving parts. One simple use for the product is helping to quiet a squeaky wheelbarrow wheel.

What Causes a Wheelbarrow Wheel to Squeak?

Over time, the axle and other moving parts of a wheelbarrow can collect dirt and debris or simply lose lubrication. As the wheel rotates against the axle, the added friction can create an irritating squeak.

Fortunately, you don't need to replace your wheelbarrow just because its wheel has started to make noise. A quick application of NEXUS GREEN Multi-Use can help get the wheel moving smoothly again.

How to Quiet the Squeak

Start by turning the wheelbarrow on its side so you can easily access the wheel and axle. Apply a few sprays of NEXUS GREEN Multi-Use directly to the axle, where the wheel rotates.

Let the solution sit for about a minute, then return the wheelbarrow to its upright position. Move the wheel back and forth several times to help distribute the product.

Now, give it a try. The squeak should be gone, leaving you with a smoother and quieter wheelbarrow.

One Less Squeak

Whether you're clearing leaves, moving soil, or working on your next garden project, a squeaky wheelbarrow can add to the noise of everyday life. With NEXUS GREEN Multi-Use, keeping your everyday tools running smoothly can be a quick and simple part of your routine.

From the garage to the garden, NEXUS GREEN is there to help with the maintenance jobs that keep your day moving.

Where to Buy NEXUS GREEN Products?

All NEXUS GREEN products are available for purchase on our website – nxsgreen.com
